The Georgetown Law Center on Inclusive Trade and Development (CITD) conference — Rethinking World Trade 2023 — is intended to bring together thought leaders and academics to reimagine our trading system in the midst of the paradigm shift occurring in the trade realm and the increasing focus on inclusive and sustainable trade.

CITD is proud to announce its first annual signature conference, Rethinking World Trade 2023 on the margins of the World Bank/IMF meetings.

We have a fantastic lineup of speakers, including our keynotes WTO DDG Anabel González and Richard Baldwin of the Graduate Institute, speaking about trade, development, inclusion, the global economy, gender, and the future of

work and all things digital.
