Introduction

The AfCFTA Secretariat and ODI are looking to recruit an Investment Expert (IE) placed in the AfCFTA Secretariat to support the African Continental Free Trade Area (AfCFTA) negotiations on the investment protocol as part of the FCDO-funded support to ODI under the name Support Investment and Trade in Africa (SITA). This draft concept notes provides justification and a preliminary job description.

Economic transformation is one of the main pillars of the African Union Agenda 2063. Increasing trade and investment in general and specifically amongst AU member States is critical to achieving economic transformation. The increase of intra and extra-African investment in Africa is critical to developing and improving the productive capabilities required to raise productivity and create

employment. AfCFTA helps this process.

Phase I of the negotiations, which commenced in February 2016, covered Trade in Goods; Trade in Services; and Rules and Procedures on the Settlement of Disputes. The Assembly of Heads of State and Government directed and guided the negotiation process throughout. This culminated in the signing of the Agreement establishing the African Continental Free Trade Area at the 10th Extraordinary Session of the Assembly held on 21st March 2018 in Kigali, Rwanda. Implementation of Phase I of the AfCFTA begun in January 2021.

Phase II of the negotiations have commenced and they cover Investment, Intellectual Property Rights and Competition Policy. The Assembly has directed that negotiations on Phase II issues must be concluded by the end of 2021.

In seeking to comply with the mandate and instructions given by the Heads of State and Government, there is a need to support the negotiation process through technical support to the AfCFTA Secretariat.
